TRUE Excellence in Design & Production

"We stand out where it counts
Foundation is everything
That's where we begin"

Building Excellence from the Foundation Out

Foundation is everything, and that's where we begin. At TRUE LIFESTYLE Design Custom Cabinetry, we understand that exceptional cabinetry is built on a solid basis. Our commitment to excellence starts with our cabinet boxes, setting the stage for the remarkable features that follow.

Unparalleled Cabinet Box Construction: We take pride in crafting cabinetry that lasts a lifetime. Our unwavering dedication to durability and integrity begins right at the first step of our production process. With our 3/4" box construction, every piece is built to withstand daily use and functioning. Each cabinet is a testament to our meticulous approach, ensuring that your spaces not only look exquisite but also serve you effortlessly for years to come.

At TRUE LIFESTYLE, we don't just create cabinetry; we create legacies of quality, strength, and beauty to build our name. Experience the difference a solid foundation makes.

TRUE DIFFERENCE

Design and Artistry for
Lasting Excellence

Radiant Aesthetic:

Experience the brilliance of our staple colour, "TRUE WHITE." This luminous shade infuses your interiors with a fresh vibrancy, providing a pristine backdrop for all your kitchen or millwork essentials. Our commitment to a consistently bright and clean aesthetic brings your vision to life. Additionally, we understand that personalization is key to creating spaces that resonate with your unique style. With a range of customizable interior finishes, we offer you the flexibility to tailor your cabinetry to match your taste and design preferences, ensuring that your space is an expression of your individuality.

Enhanced Edge Banding and Sturdy 3/4" Shelving:

Our belief in quality goes beyond words—it's something you can both see and feel. Our commitment to durability is showcased through our 1mm edge banding. This protective layer not only shields your products but ours as well, standing strong against daily wear while offering a smooth, tactile experience. This edge banding eliminates any visual imperfections, maintaining a pristine and timeless appearance.

Equally, our commitment to structural integrity extends to our 3/4" shelving. Featuring the same meticulous banding as our cabinets, it seamlessly blends durability with aesthetics. This design choice guarantees not only exceptional aesthetics but also ensures load-bearing strength, providing sturdy and sag-free storage solutions for your daily use.

Incorporating the same level of detail and quality into every aspect, we redefine what cabinetry can be—exceptional in both form and function.
